## Product brochure

---

- > Enjoy the full print, scan, copy and fax functionality these three colour systems offer to increase your workflow efficiency.
- > Excellent image quality gives your documents an impressive look & feel and reflects the professionalism of your business.
- > Outstanding document security is ensured thanks to the Toshiba Secure HDD, which protects your data from unauthorised access.
- > Ease of use can be taken for granted and will help optimise your document workflow.
- > Low power consumption, duplex printing and energy save modes are just a few of the features to support an economical and ecological business environment.

## KEY FEATURES

- 1 Intuitive usage via a large colour touch panel gives easy access to the print, scan, copy and fax function.
- 2 Excellent image quality with exceptional clarity and sharpness will deliver impressive colour documents.
- 3 Bases on reliable Toshiba e-BRIDGE technology the e-STUDIO407 series seamlessly integrates into existing print fleets and allows easy yet effective administration.
- 4 Thanks to the Toshiba Secure Hard Disk Drive with self-wiping technology and sophisticated authentication method, the systems offer an outstanding level of data security.
- 5 A paper capacity of up to 3,160 pages ensures that even large print jobs are processes without interruption.

Compact design, easy integration, excellent colour and monochrome image quality – the e-STUDIO407cs series gives you a choice of three models for multifunctional A4 document production at speeds ranging from 28 to 40 pages per minute. Thanks to e-BRIDGE technology, the A4 specialists fit seamlessly into existing fleets.

# A STYLISH ALL-ROUNDER

## The right device in the right place

Some jobs call for a specialist: With the large numbers of documents processed in most offices, a compact device specialised in A4 can significantly enhance convenience and productivity. To ensure maximum efficiency wherever large volumes of A4 documents are required, Toshiba has designed three stylish multifunctional systems which are fully equipped with e-BRIDGE technology for smooth and easy integration into existing fleets. This gives offices easy access to A4 documents at all times.

In size, shape and performance, the e-STUDIO407cs series fits perfectly into modern offices. Compact as they are, the three models of this series are loaded with performance – like an effective speed of 28, 34 and 40 pages per minute (ppm) respectfully, useful finishing options and intuitive operation via the large touchscreen.

By adding up to five additional paper sources such as cassettes or a large capacity feeder, the devices can offer a total paper capacity of as many as 3,160 sheets. This enables different users or departments to print on separate colours or letterheads, without constantly having to change paper. Therefore, these three models are ideal for departments and workgroups requiring reliable productivity.

## Crystal clear down to the smallest detail

Whether images or text, colour or monochrome, the e-STUDIO407cs series deliver A4 prints, scans and copies in the exceptional clarity and sharpness you, your staff and customers expect from a Toshiba system. Fine lines and tiny dots come out crystal clear, with a wide range of colour nuances and excellent glossiness.

## A sound investment in adaptability

This A4 series is designed for image quality, performance and versatility in three models that all deliver the same outstanding value for money, but offer a choice of different print speeds.

## Designed with the environment in mind

With many companies seeking to reduce their ecological footprints, Toshiba has placed sustainability and climate protection high on the agenda in developing the e-STUDIO407cs series. The three models are designed to operate at low energy and save resources. They offer duplex printing to save paper as well as auto energy save modes. The series complies fully with the ENERGY STAR® emissions standard.

Each unit provides all-in-one functions – print, scan, copy, optional fax – and can be individually configured and expanded to fit evolving needs.

With the Toshiba e-BRIDGE technology for easy integration into existing network environments, the e-STUDIO407cs series is equipped to adapt to growing and changing workflows.

The Universal Printer Driver is a user-friendly feature which allows the storing of personal settings via one-touch templates. Furthermore, activating department- and/or user-codes enables easy handling of access rights to the various functions.

## A specialist with trusted ease-of-use

The intelligent e-BRIDGE controller and large 9-inch colour touch panel make operation convenient and intuitive. A range of personal setting options in Toshiba's sophisticated template management system enhance convenience, efficiency and accuracy. Documents can be converted into various digital file formats and a USB interface allows easy transfer to offline storage media as well as direct printing from USB drives.

## About Toshiba Tec

Toshiba Tec Nordic is part of the globally operating Toshiba Tec Corporation, active in various high-tech industrial sectors.

Toshiba Tec Corporation is a leading provider of information technology, operating across multiple industries - ranging from retail, education and business services to hospitality and manufacturing. With headquarters in Japan and over 80 subsidiaries worldwide, Toshiba Tec Corporation helps organisations transform the way they create, record, share, manage and display information.
